## Work Experiences

*May 2024 - Jul 2024*

### **Web Developer at Codules Technologies Pvt. Ltd**

- **Developed and maintained** responsive and user-friendly websites and web applications using HTML, CSS, JavaScript, and frameworks.
- **Collaborated with cross-functional teams** including designers, product managers, and other developers to deliver high-quality solutions and meet project deadlines.
- **Integrated RESTful APIs** and other web services to fetch and display data dynamically, ensuring seamless interaction between the user interface and back-end services.
- **Optimized front-end performance** through techniques such as code splitting, lazy loading, and asset minification, resulting in faster load times and improved user satisfaction.

*Jul 2024 - Aug 2024*

### **Web Developer at CipherByte Technologies**

- **Developed and maintained** web pages and applications using HTML5, CSS3, and JavaScript, ensuring a responsive and visually appealing design.
- **Worked on personal and academic projects** to build interactive user interfaces, applying fundamental front-end technologies and best practices.
- **Collaborated with peers** on team projects to implement design prototypes, translating them into functional and efficient code.
- **Incorporated responsive design techniques** using media queries and flexible grid layouts to ensure compatibility across various devices and screen sizes.
- **Applied basic version control practices** using Git and GitHub for code management and collaboration on group projects.

---

## Projects

### **Weather App**

**ThunderConcept** is a cutting-edge weather application designed to provide users with real-time weather updates and forecasts in an intuitive and visually appealing interface. This project aims to create a responsive and interactive front-end application using modern web technologies to deliver accurate weather information to users across various devices.

**Skills**

Java

Data Structures

Web Development

Bootstrap

JavaScript
